Pre-planning

5 ideas for my website

Japan
Deltarune
Mental health
Halting problem
Earthbound

Idea: Japan's vending machines.

Who: Young people interested in Japan
What: A showcase of some of Japan's unique vending machines and an article talking about why they are everywhere
Why: To show people an interesting thing about Japan

Statement of Intent

I intend to make a website about vending machines in Japan. My website will include captioned images of vending machines because Japan has many interesting vending machines, and a simple article talking about the vast amount of vending machines in Japan because it is an interesting story.

Existing Designs

|	
https://www.woolworths.com.au/	1. I like the placement and size of the logo and how it shows how much the items in your cart have cost. I don't like the big ad in the middle of the page. 2. I like the nav bar and how the search bar is centred in the middle of the screen. 3. I will use the logo and parts of the nav website.

https://www.desmos.com/scientific
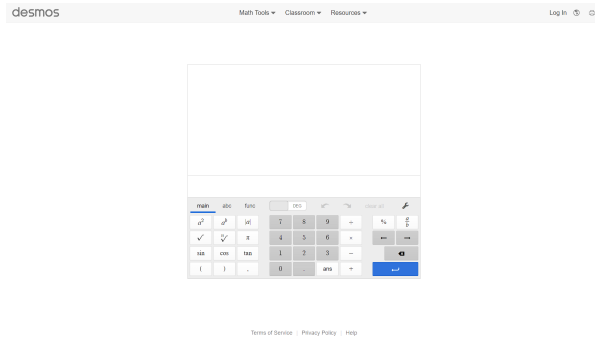

I like the simplicity of the website and how there is nothing more than there needs to be. The whitespace is a bit overwhelming though. I am going to include some simplicity in my website by not adding unnecessary ads

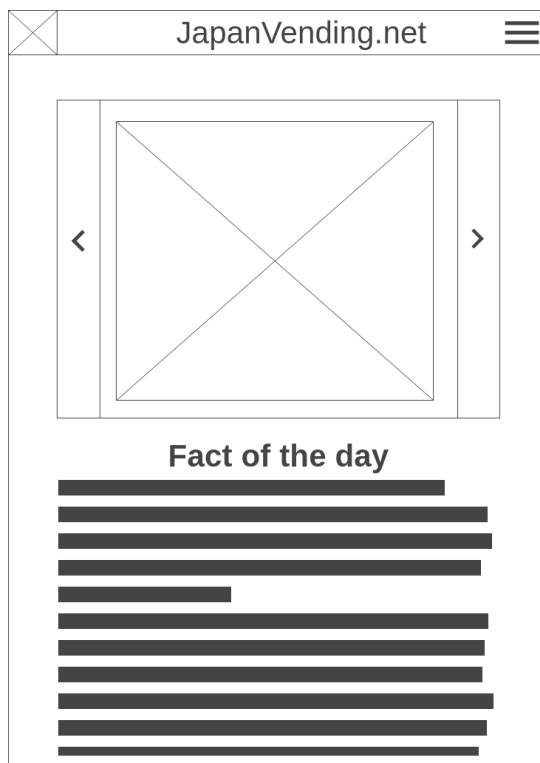

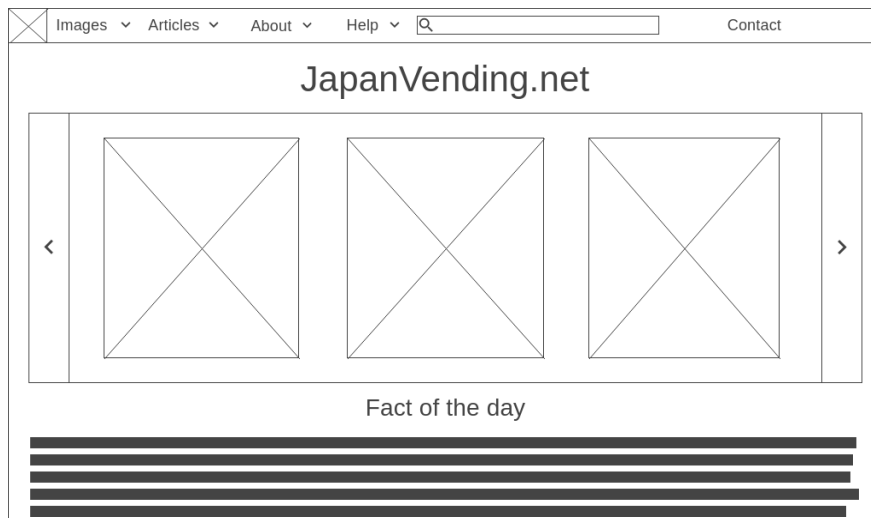

https://m.youtube.com/

I like how the website fits well in mobile form
